

RESEARCH SCIENTIST (M/F/D) MASS SPECTROMETRY-PROTEIN SCIENCES

Proteros is a privately held early-stage services provider in structure-based drug discovery with a cutting-edge discovery engine tailored to unlock even the most technically challenging targets. Proteros' work is built on scientific excellence and supports its clients to reach the right results and accelerate their overall research timelines. Proteros supports most of the world's 20 largest pharma companies and more than 250 pharmaceutical and biotech partners in the US, Europe and Japan. For more information please visit www.proteros.com.

YOUR RESPONSIBILITIES

- Characterization of biotherapeutics using mass spectrometry (intact mass and peptide mapping workflows)
- Development and optimization of mass spectrometry-based methods, e.g. for intermediate and final product analysis
- Presentation of the scientific results as well as convincing and confident communication of the content to customers, business partners and colleagues
- Scientific and technical troubleshooting as well as maintenance of HPLC and MS devices
- Continuous improvement of laboratory processes as well as evaluation of alternative technologies when expanding the range of MS method spectrum
- Effective use of synergy effects with and in exchange with other specialist departments

YOUR PROFILE

- PhD or Bachelor's/ Master's degree with a min. of 5 years of work experience in the field of (bio)-analytical chemistry or related with recent and extensive research laboratory experience
- Solid background in the field of LC-MS analytics (method development, practical implementation and data evaluation)
- Experience in the field of protein science/ biochemistry as well as LC-MS analytics of proteins would be an asset
- Enjoy working in interdisciplinary and international teams as well as excellent communication skills in English (knowledge of German is an advantage)
- Practical work experience in the pharmaceutical industry would be an asset

OUR OFFER

- An innovative professional field in an exciting industry
- An inspiring working atmosphere as fertile ground for your further development
- A comprehensive induction that prepares you optimally for your area of responsibility
- Multicultural teams and an open corporate culture
- A salary in line with the market

HAVE WE PIQUED YOUR INTEREST?
