

SENIOR PROJECT MANAGER (M/F/D) IN EARLY STAGE DRUG DISCOVERY

Proteros is a privately held early-stage services provider in structure-based drug discovery with a cutting-edge discovery engine tailored to unlock even the most technically challenging targets. Proteros' work is built on scientific excellence and supports its clients to reach the right results and accelerate their overall research timelines. Proteros supports most of the world's 20 largest pharma companies and more than 250 pharmaceutical and biotech partners in the US, Europe and Japan. For more information please visit www.proteros.com.

YOUR RESPONSIBILITIES

- Project Management of Discovery Solutions (Early Stage Drug Discovery) and Structural Biology projects within the scope of our business approach, including customer interaction with international Pharma and Biotech companies in the US and EU
- Acquisition of Early Drug Discovery Projects
- Lead multi-disciplinary scientific teams
- Suggest suitable solutions and technological approaches according to target/customer needs
- Drive projects from gene to qualified hits according to research target profile (RTP) including mode of inhibition/action, biophysical validation and structures

YOUR PROFILE

- Hands-on experience in industrial drug discovery, including protein sciences, biophysical/biochemical assays, and structural biology
- Prior minimum of 2-years experience in pharma, biotech, CRO, or academia in Biophysics/Structural Biology
- PH.D. degree in in Biochemistry, Molecular Biology, Biophysics, Structural Biology, Medicinal Chemistry, or related fields, post-doc experience
- Good understanding of small molecule drug discovery processes including enabling technologies in the areas of protein sciences, structural biology, and biophysical/biochemical assays and Hit identification
- Ability to manage multiple complex projects simultaneously with internal and external stakeholders and eagerness to move projects to completion
- Able to envision a project as a "whole package", anticipate problems/bottlenecks, and mitigate risks
- Service mindset
- Excellent written, verbal and interpersonal communication skills and the ability to effectively interact with all levels both within and outside the company
- Demonstrated strong sense of responsibility and collaboration, and excellent analytical skills

OUR OFFER

- an innovative profession in an exciting industry
- an inspiring working atmosphere as fertile ground for your further development
- a comprehensive training that prepares you optimally for your area of responsibility
- multicultural teams and an open corporate culture
