

SENIOR SCIENTIST (M/F/D) PROTEIN SCIENCE

Proteros is a privately held early-stage services provider in structure-based drug discovery with a cutting-edge discovery engine tailored to unlock even the most technically challenging targets. Proteros' work is built on scientific excellence and supports its clients to reach the right results and accelerate their overall research timelines. Proteros supports most of the world's 20 largest pharma companies and more than 250 pharmaceutical and biotech partners in the US, Europe and Japan. For more information please visit www.proteros.com.

YOUR RESPONSIBILITIES

- Scientific leadership in multidisciplinary teams to achieve corporate goals for challenging drug discovery projects
- Supervision of a team of technical staff and/ or scientists
- Establishing and managing research projects as project scientist as well as scientific project manager (including independent planning, literature research and confident customer interaction)
- Planning, development, implementation and optimization of protein production workflows
- Characterization of challenging proteins by state of the art biochemical and biophysical methods
- Preparation of project documentation (i.e. project plans, SOPs, scientific presentations, technical reports), their review and training of scientific staff
- Presentation of the scientific results as well as convincing and confident communication of the content to colleagues, customers and business partners

YOUR PROFILE

- PhD in protein biochemistry or related field with an excellent track record
- A minimum of 2 years working experience in the pharmaceutical industry
- Strong acquaintance with regard to rational construct design, protein expression (bacterial, insect, mammalian), chromatographic purification techniques, purification process optimization and protein characterization methods
- Profound knowledge in structural biology (X-ray or Cryo-EM)
- Hands-on mentality with a problem-solving mindset and attention to details
- Experience in scientific project management
- Experience with industry-standard operational management tools such as project management software and LIMS systems
- Independent, service-oriented way of working, with an outstanding team spirit and excellent organization and communication skills

OUR OFFER

- An innovative professional field in an exciting industry
- An inspiring working atmosphere as fertile ground for your further development
- A comprehensive induction that prepares you optimally for your area of responsibility
- Multicultural teams and an open corporate culture
- A salary in line with the market
